## Project

### Portfolio

This portfolio is a modern and responsive web application created with HTML, CSS, and JavaScript, with Bootstrap providing a mobile-first, visually uniform design. It provides a complete overview of projects, talents, and accomplishments, demonstrating both technical ability and creative flare. Key features include a compelling hero section, a well-structured .

### E-COMMERCE

This e-commerce website is a dynamic platform that aims to provide a smooth and user-friendly online purchasing experience. It is developed with HTML and CSS to create a well-structured and visually pleasing interface, which is extended with JavaScript and jQuery for interaction. The website also has an administrative interface for managing products, orders, and users.

## About Me

I am an B.Tech graduate who is interested in learning technology and growing my skills. I want a good platform or working environment where I can implement my theoretical knowledge and get help from the team members as well to grow my skills and also make some positive impact in the organization growth.
